

Scalewatcher®

The simple solution to hard water problems

Maintenance Free

Increase your income!

The Scalewatcher Group of companies is looking for agents and resellers having a client base in Commerce or Industry.

This innovative product, of which numerous numbers have been sold since its inception in 1989 has proven itself over and over again, being able to remove and prevent mineral scaling. And what is more, it is capable to reduce rust forming and corrosion.

General benefits

- Prevents the formation of scale from hard water
- Dissolves existing scale accumulation
- Non invasive, Easy to install.
- No plant shutdown
- Water chemistry unaltered
- No chemicals or salt required
- Has no moving parts
- Design life of more than 20 years
- Requires only 110/230 VAC 50/60 Hz
- Power consumption less than 150 W
- Three phase optional
- Solar power optional
- Portable and compact
- Effective regardless of pipe material and pipe diameter
- Supportive for traditional chemical water treatment

Protect equipment - Reduce maintenance & down time- Prevent & eliminate scale

Water heaters - Evaporative coolers - Reverse Osmosis Systems - Pumps - Valves - Boilers - Radiators - Ice makers - Irrigation & Mistig Systems - Heat Exchangers - Swimming Pools - Marine - Carwashes - Restaurants - Office Buildings - Condominiums - Schools - Golf courses - Water Parks - Fabrication & Processing Plants - Pipe Lines - Drinking & Waste Water Treatment Plants - Garment Industry - Paper Manufacturers - Steel Manufacturers - Food processing - Municipalities - Plastic manufacturers - Poultry and Pig Farms

Scalewatcher®

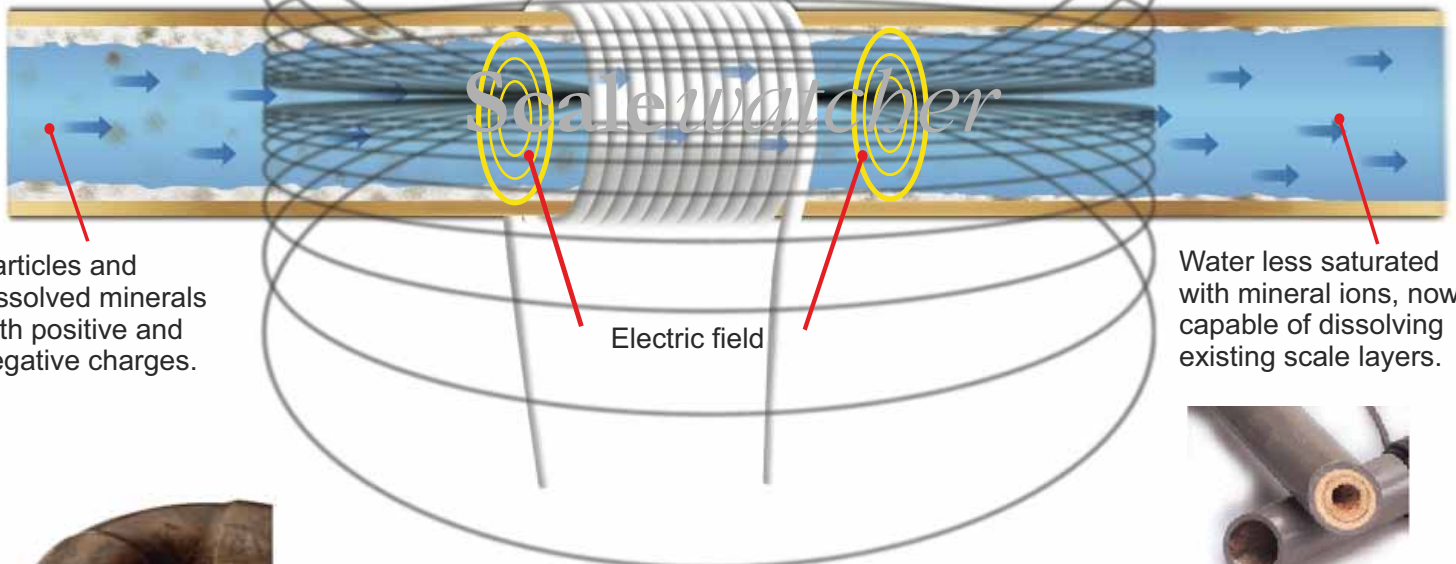

The simple solution to hard water problems

Maintenance Free

Scalewatcher's patented technology works by producing a complex frequency modulated waveform, inducing electric and magnetic fields inside the pipe, promoting crystal growth in the bulk of the water.

Magnetic field

Crystals stay suspended in the water and do not contribute anymore to the build-up of hard pipe wall deposits. Existing scale is softened and carried away by the flow of water.

Particles and dissolved minerals with positive and negative charges.

Water less saturated with mineral ions, now capable of dissolving existing scale layers.

Why the *Scalewatcher* Group?

- ✓ In business since 1989
- ✓ The full product line is designed and manufactured in house.
- ✓ Products have been continuously improved since their inception
- ✓ No financial investment required
- ✓ High commission
- ✓ Application knowledge available for a wide range of equipment used in Commerce and Industry
- ✓ Promotion material made available at no charge
- ✓ Excellent Guarantees
- ✓ Excellent support.
